THE WORLD CONSERVATION FORUM 2021

The aim of WCF2021 is to provide a forum for countries, organizations and opinion leaders around the world to share their views on topics and showcase best practices from around the world. As the organizing country, Hungary will emphasize the topic of coexistence between human and wildlife.

THE
**WORLD
CONSERVATION
FORUM**
2021

THE WORLD CONSERVATION FORUM 2021

FIELDS OF MISSION: NATURE & INNOVATION, NATURE CONSERVATION, FUTURE ORIENTATION

We are exploring these fields with the help of lectures, panel discussions, digital and analog installations and attractions. All this with the maximum involvement of visitors, in dialogue and interaction with them.

A DJI Mavic 2 drone is positioned on a dirt path in a lush, green forest. The drone is black and grey, with its four propellers folded. In the background, a waterfall cascades down a rocky cliff, surrounded by dense vegetation. The scene is captured in a cinematic style with soft lighting.

THE WORLD CONSERVATION FORUM 2021

LATEST ACHIEVEMENTS & GOOD PRACTICE

In the conference centre hosting the World Conservation Forum, startups, research hubs, museums and technological innovations operating in the sector present themselves in the form of interactive lectures, workshops and exhibitions. We place key sustainability technologies, tools and solutions at tangible proximity for visitors.

THE WORLD CONSERVATION FORUM 2021

THEMES:
NATURE CONSERVATION,
NATURE & TECHNOLOGY,
HUNTING,
SUSTAINIBILITY,
METROPOLITAN JUNGLE

We create space and
opportunity for collective
thinking, knowledge exchange
and international networking
among renowned research
hubs and museums

THE
**WORLD
CONSERVATION
FORUM**
2021

GOALS

1. Let's break down the old taboos and create a new narrative.
2. Let's look forward to the future and act responsibly today.
3. Let's involve as many interested people as possible and keep them.
4. Let's use the power of personal storytelling.

THE
**WORLD
CONSERVATION
FORUM**
2021

TARGET GROUPS

Leaders of international professional organizations, policy makers

To give them a new community experience and confidence, to create momentum and guide them.

Wider professional public, sectoral actors

To provide information and knowledge exchange, strengthen international networking and expand economic opportunities.

Interested members of the public

To express the diversity, sense of responsibility and the innovative capacity of the sector towards interested or even critical visitors.

THE
**WORLD
CONSERVATION
FORUM**
2021

TOPICS

Revenge of nature: how can we defend
against the viruses of the future?
High-tech fight against poaching
Zero waste: utilization of horse manure
The great ocean clean-up
The future of satellites in agriculture
Bacterial cocktail for a plastic-free world
A world of renewable energies

Loss of biodiversity: is there a solution?
Apocalypse now - will climate change be
a failure or a success story?
How to get close to nature again?
How can bees save the world?
How to grow a forest in your garden?
Metropolitan jungle
Female hunters

PAVILION A

International Hall

19,528 m²

Presentation of countries
International organizations
National hunting organizations
Professional organizations
Research hubs
Museums of nature

World Conservation Forum 2021

Interactive, innovative
and museum-style exhibitions
Stands and installations
Diverse presentation of topics (hunting
traditions, nature conservation, agriculture,
biodiversity, water management, etc.)

PAVILION H

Central Hungarian Exhibition

5,650 m²

Hunting culture is an integral and exciting part of Hungary's one thousand years of history.

We will present a landscape, a typical species of game and a historical figure from every century of the past one thousand years.

Seventeen separate sections – three interconnected rooms in each section

Curator: Gábor Gulyás

The background of the entire page is a large, dimly lit underwater scene. It features a variety of fish, including many small, silvery fish swimming in the upper half, and several larger fish, including a prominent sturgeon-like fish with long, white barbels on the right side. The water has a greenish-yellow tint, and the overall atmosphere is mysterious and aquatic.

PAVILION D

Fish, Water, Mankind

5,580 m²

Taxidermy exhibition space
Fish, water and mankind exhibition space

Diorama installations, exhibition space
Living bodies of water 719 m²
2,000 fish from nearly 50 species in one
million litres of water
Live specimens of our protected amphibians,
reptiles and waterfowl
Panoramic spatial representation of large
bodies of water, aquatic and waterside life,
with taxidermy specimens

Curator: Olivér Kóródy

The background of the entire page is a warm, golden-yellow photograph of a field at sunset or sunrise. In the foreground, the silhouettes of three deer are visible. One deer on the left is standing and facing right, showing its antlers. Two other deer are in the foreground, one slightly behind the first and another further back, both facing right. The background is filled with the soft, out-of-focus silhouettes of trees and bushes.

PAVILION F

Hall of Traditional Hunting Methods

3,838 m²

- Hunting and horses
- Bowhunting
- Falconry
- Hunting and dogs
- Hunting with a muzzle-loading rifles
- Adventure trail of traditional hunting methods
- Trapping
- Burrow hunting
- Hunting with bloodhounds
- Gamekeepers vs. poachers
- History of Hungarian hunting literature
- Hunting-related coats of arms

Curator: Dr. Balázs Németh

OUTDOOR EVENTS

29 September - 3 October 2021

OWN INTERNATIONAL HUNTING CONFERENCE

PAVILION C

OWN International Hunting Conference

4,500 m²

We are inviting the world's leaders in
hunting and renowned experts.

Our message is framed by phrases
describing the challenges of our age.

Habitat protection
Coexistence of humans and wildlife
Human responsibility – sustainability
Poaching

Curator: Péter Gőbölös

CONFERENCE CENTRE

OWN International Hunting Conference

Themes

Hungarian hunting history and tradition
(general or a specific geographical review,
analysis, description)

Game and forests, game management and
forestry / game management and landscape
management

Hunting and nature conservation; hunting
and ecology

Hunting and law / legal history

Game management and its economics

Health of game animals

Hunting and the arts / hunting as the oldest
muse of the arts; fine arts, literature, music

Hungarian hunting weapons and ammunition,
the study of Hungarian weapons, history and
practice

Hunting and communication (electronic and
print media, social media, specialist journalism)

Organization and marketing of hunting

PAVILIONS B, E & C

Commercial Halls

6,515 m², 7,300 m² & 2000 m²

30 September - 3 October 2021

WEAPONS, FISHING, HORSE, DOG AND HUNTING FAIR

FeHoVa+

7-10 October 2020

AGRICULTURE AND FOOD EXHIBITION AND FAIR

OMÉK+

September - October 2021

INNOVATION SHOWROOM

CULTURAL EVENTS

Curator: György Lőrinczy

4 September 2021

CLOSING EVENT OF THE EUROPEAN EQUESTRIAN CHAMPIONSHIPS

Also the introductory event of OWN –
